

# Workshop on Advances in Parallel and Distributed Computational Models

In recent years, new parallel and distributed computational models have been proposed in the literature, reflecting advances in new computational devices and environments such as optical interconnects, FPGA devices, networks of workstations, radio communications, DNA computing, quantum computing, etc. New algorithmic techniques and paradigms have been recently developed for these new models.

The main goal of this workshop is to provide a timely forum for the dissemination and exchange of new ideas, techniques and research in the field of the new parallel and distributed computational models. The workshop will bring together researchers and practitioners interested in all aspects of parallel and distributed computing taken in an inclusive, rather than exclusive, sense.

## **Workshop Chair:**

Oscar H. Ibarra (University of California Santa Barbara)

## **Program Co-Chairs:**

Koji Nakano (Nagoya Institute of Technology), Stephan Olariu (Old Dominion University)

## **Steering Committee**

Narsingh Deo (University of Central Florida, USA), Joseph JáJá (University of Maryland, USA), Ernst W. Mayr (Technical University Munich, Germany), Lionel Ni (Michigan State University, USA), Sartaj Sahni (University of Florida, USA), Behrooz Shirazi (University of Texas, USA), Peter Widmayer (ETH, Zurich, Switzerland)

## **Program Committee**

Jik Hyun Chang (Sogang University, Korea), Chuzo Iwamoto (Hiroshima University, Japan), Omer Egecioglu (University of California, USA), Hossam ElGindy (University of New South Wales, Australia), Akihiro Fujiwara (Kyushu Institute of Technology, Japan), Ju-wook Jang (Sogang University, Korea), Rong Lin (SUNY Geneseo, USA), Toshimitsu Masuzawa (Nara Institute of Science and Technology, Japan), Rami Melhem (University of Pittsburgh, USA), Eiji Miyano (Kyushu Institute of Design, Japan), Michael Palis (Rutgers University, USA), Sanguthevar Rajasekaran (University of Florida, USA), Nicola Santoro (Carleton University, Canada), James Schwing (Central Washington University, USA), Hong Shen (Griffith University, Australia), Ivan Stojmenovic (University of Ottawa, Canada), Jerry L. Trahan (Louisiana State University, USA), Ramachandran Vaidyanathan (Louisiana State University, USA), Biing-Feng Wang (National Tsinghua University, Taiwan), Jie Wu (Florida Atlantic University, USA), Masafumi Yamashita (Kyushu University, Japan), Tao Yang (University of California, USA), Si Qing Zheng (University of Texas at Dallas, USA), Albert Y. Zomaya (University of Western Australia, Australia)
